

ARMATURE ELECTRIC LIMITED

SPECIALISTS IN ELECTRO-MECHANICS

3811 North Fraser Way, Burnaby, British Columbia V5J 5J2

March 2021

Armature Electric Ltd, (AEL) is a premier electro-mechanical service shop located in Burnaby British Columbia, with a global reach for sales, service and repair of power distribution, medium and high voltage motors, and generators. Over the last 8 years we have experienced continuous growth as we serve the Mining, Pulp, Paper, Marine, Material handling, Forestry, Cement and Oil & Gas sectors. Our leadership is fully committed to continuing with their investment in our people, facilities, and equipment. Our strategic alliances with major OEM's providers expands our product offering and technical capabilities. It affords us the opportunity to offer a complete solution to our customers and training/development opportunities to our employees. The AEL Repair facility is one component of a large Service, Engineering and Distribution parent company in Western Canada.

AEL's dedication to service and innovation means keeping up with the latest developments and technologies. We are not just about providing electrical motor supply and repair services when you need it; we are about keeping our customers running efficiently, effectively, and economically well into the future

AEL, is currently seeking a knowledgeable and experienced Rotating Electrical motor/generator specialist with leadership/management aspirations to supervise a team of highly motivated red seal trade personnel in a growing electro-mechanical rotating equipment service and repair business.

We are an equal opportunity employer offering competitive salary, benefits, and incentive plans.
